

RX-8046

SANDWASHER / VESSEL CLEANER

Description

RX-8046 is a blend of surfactants in an aromatic and alcohol / glycol solvent system.

RX-8046 has been developed as an environmentally more acceptable product to Sandwasher / Vessel Cleaner RX-9000X.

RX-8046 has an excellent environmental profile with a Gold CHARM banding and no product warnings awarded to this product.

RX-8046 has been developed as a direct equivalent to RX-9000X and consequently can be used in the same applications. Treatment rates and results are expected to be equivalent.

Application

Topsides Vessel Cleaner:

Operators currently using RX-9000X to remove oily deposits from the insides of their topside vessels can use **RX-8046** as a direct replacement. Laboratory evaluations indicate that treatment rates will be equivalent to those for RX-9000X, i.e. depending on the volume of crude contamination, product would be applied at a concentration of 1% - 5%.

Sandwasher:

RX-8046 can also be used as a direct equivalent to RX-9000X by Operators using this product to clean oily sand and water prior to dumping. Again, treatment rates are expected to be equivalent to those for RX-9000X i.e. 0.1 - 1% v/v **RX-8046** in sand wash water. Laboratory evaluations indicate that the performance of **RX-8046** will equal that of RX-9000X, giving very clean sand and water along with a sharp oil/water interface during sandwashing applications.

Properties

Appearance / Odour	Golden / yellow, clear liquid
Specific gravity	0.86 – 0.90
Flash point	> 70°C
CHARM / OCNS	Gold, no substitution or product warnings

Handling

No special procedures need to be observed. Normal precautions should be taken and protective clothing, goggles and PVC/rubber gloves should be worn.

Packaging

Available in 208 litre drums, 1,000 litre IBC's or in exact quantities supplied in tanks of up to 4,500 litre capacity.
